

Alpha Centauri Cannon

Future Stud Male

Cannon is a very well grown male with a dense, lustrous, crimped fleece. He is the half brother of our recently certified male Alpha Centauri Outlaw. Both males are sired by Adori Accoyo Altaz, and were born on the same day. We were spoiled for choice when it came to deciding which of these two males to certify for our own use. As we decided on Outlaw, We can therefore offer Cannon for sale to a lucky purchaser. He is 2.5 years old and ready to work

His fleece was awarded 3rd place at the 2008 National Show.

He is currently uncertified but we will certify him prior to transfer.
